Fixed-Speed Air Handlers Engineered for Quality

- Westinghouse air handlers are built with proven components to provide safe, clean and reliable comfort year-round.
- All Westinghouse air handlers offer a 5-year warranty to provide you peace of mind knowing we stand behind our products.
- For more information on our warranty, ask your Westinghouse dealer, or visit us on the web at www.westinghousevac-intl.com for details.

When an air handler is truly built to exacting standards of quality and durability, the manufacturer's confidence shows in its warranty.

Westinghouse air handlers offer a

5-year warranty on all parts. To learn more about our product warranties, ask your Westinghouse

dealer, or visit us on the web at www.westinghousevac-intl.com for details.

A "split" system is the most common heating and cooling central system used. Your split system air conditioner or heat pump is the outdoor component of a total system. The indoor component is a matched coil, which typically sits on top of the furnace, or in warmer climates, an indoor air handler is used, like the one in this brochure. When you replace your outdoor system it is extremely important to replace the indoor portion as well, in order to meet energy efficiency performance and not void important warranties. Not changing your indoor component is like buying a new car then placing old, worn tires on it . . . performance and reliability are compromised.

So for home comfort year after year, trust Westinghouse for a complete comfort system.

13+ SEER Fixed-Speed Air Handlers

Features & Benefits

This air handler is designed for ease-of-serviceability and flexible installation configurations. Its Silicone-protective polyurethane coating resists scratching and prevents rusting to keep your air handler looking new for years to come.

If allergens, dust, mold, pet odor, dry air, temperature control etc. is a problem for you or your family members, ask your dealer how he can design a Westinghouse system to reduce common irritants, and increase comfort throughout the home for everyone.

Reduce energy costs with a Programmable Thermostat. By programming the thermostat to your schedule you can reduce the operating costs.

With a Westinghouse air conditioner or heat pump coupled with a Westinghouse air handler, you expect quality, dependability, energy-efficiency, value and comfort. And that's exactly what you get from a Westinghouse product. After all — You can be sure... if it's Westinghouse.

When choosing an air handler, look at not only the product but also at the service and support provided by your dealer. Your Westinghouse dealer can not only help you select the right air handler for your home but also help you keep it in top operating condition.

Our standard air handler features the multi-speed motor which can be adjusted to the exact blower speed needed for any application.

* Annual costs based on 36,000 Btu unit, 1500 cooling load hours, and .08/kwh. Actual costs may vary depending on climate conditions, energy rates and patterns of usage.
